PROFILE

Hi, I am a Fullstack developer with 5+ years of experience in development new features and apps of different levels of complexity. I have worked with two main frontend frameworks (React, Vue.js). I am also interested in a deeper study of backend technologies, so I am improving my skills in this area (PHP, Laravel, NodeJS, MySQL, PostgreSQL, RestAPI, GraphQL).

Now I am looking for a company that develops interesting products and uses modern technologies, where I can apply my knowledge and experience, join a friendly development team.
